

**DON'T DREAM IT, DRIVE IT**

*THE ALL-NEW 2022*

**QUDS CAPITAL E.S.**

**EV ELECTRA LTD**

## ***QUDS CAPITAL EXECUTIVE SEDAN 2022***

Forget everything you thought you knew about “luxury”, and step into the world of progressive comfort, ultimate performance, and phenomenal looks.

Capital ES is an AWD electric vehicle, performing all functions of typical family vehicle. It is a four-door, five seater vehicle with a bold claim of high range which makes it ideal for different types of drivers.

***ROADS ARE MADE FOR JOURNEYS, NOT  
DESTINATIONS.***

## ***APPEARANCE.***

Designed to elegantly dominate its class with unprecedented luxury and uniqueness.

## ***PERFORMANCE.***

Its momentum rumbles the streets showing the next level of driving.

## ***VALUE.***

A step into a futuristic dimension of driving with an assured return on value whilst serving the environment.

Ultra-bright LED head-lights that increase visibility for the driver.

Ultra-bright standard LED tail-lights with all-in-all functionality.

The dome represents the identity of our QUDS production line and operates as an air intake to support the cooling system.

***BLACK & COPPER***

***BLACK & SILVER  
METALLIC***

***BLACK & WHITE

180 [KM/h]

***RANGE.***

Capital ES travels up to 800 KM on a full charge.

Best range for a family road trip based on the drive mode.

***CHARGING.***

Equipped with a built-in charger and a universal plug which makes it compatible to all charging stations.

20-30 minutes to fast charge your battery from 20% to 80%.

***AIR SUSPENSION.***

Modern electronically controlled air suspension system, features self-leveling for your choice of driving mode.

***AERODYNAMICS.***

Advanced science and art combined to built a design of lines and curves that improve stability, traction and top speeds.

***AUTO HOLD SYSTEM.***

A component of the electronic brake system which, once activated, will automatically hold the brake pressure applied and released once the throttle pedal has been nudged.

***CRUISE CONTROL.***

Electronic system that provides automatic speed control to enable the vehicle to maintain constant selected speed.

***PARKING SENSORS.***

Functions as a detector of obstacles in the front or rear. The system automatically activates while parking your vehicle.

***CAMERA SYSTEM.***

360 degrees camera technology provides real-time view of the area surrounding your car. This security feature is accessible from the Electra application installed on your smart phone.

***DAYTIME RUNNING LIGHTS.***

DRL is a lighting system that keeps the lights on upon ignition.

The purpose is to increase the visibility of your car.

***BLIND SPOT DETECTION.***

Sensors mounted on the side mirrors to cover blind spots in the area alongside the vehicle. This feature is responsible for reducing risks of accidents during lane changes.
